### **Stefano Saldarriaga, Peru**

Stanford Continuing Studies: *Software Startup Formation*

“I am very grateful for the generosity of amazing people like you, who encourage other people to pursue their goals. Thank you so much for providing me the opportunity to learn from wonderful experiences, to improve my English skills, and to allow me to develop the tools required to get accepted into an MBA program. Now I am prepared to start graduate school. You have also helped me to reinforce an important goal of my life: helping other people to achieve their goals, like you did with me.”

### **Natalia Drummond Braga, Brazil**

Stanford Continuing Studies: *Mindfulness for Life & Leaders*

“This course was an amazing opportunity to show me a whole new world. I did Law School in Brazil and I used to be a Judge Assistant there. With this course, I could study something completely different from what I was used to and practice all those abilities for my real life, considering that I have two kids, and for my professional life also. Thank you so much for this opportunity. I will never forget how rich it was for me.”

### **Manuela Barros, Uruguay**

Stanford Continuing Studies - *The Path from Idea to Product*

“This course gave me the possibility to learn about how to bring a product/business idea to the market. It was very helpful because I’m an industrial designer wanting to be an entrepreneur and it gave me a lot of useful information to start a new business and sell my products. I want to express my sincere gratitude and appreciation to the donors for giving me the possibility of doing this course. I couldn’t have done it without the financial help, so thank you very much.”
