

## Spouse Education Fund (SEF) 2020-2021 Testimonials

### **Nahima Dchiri, The Netherlands**

IDOL Bootcamp for *Instructional Designers*

“This grant is benefitting my educational goals in enriching me with the knowledge and tools I need to set up my own freelance instructional design business. I am actually working as a freelance instructional designer. I am now able to maintain my income by knowing how to use my skills. Thank you for helping me achieve my goals and my dreams. Soon, I will also be able to donate to the Spouse Education Fund and give back what has been given to me.”

### **Marina Ohashi, Japan**

Stanford Continuing Studies: *Business Presence and Persuasion*

“The skills (from this grant) are helpful to communicate with colleagues, family and friends in my usual life. After I return back to Japan, I believe this course will help me to build a good relationship with both Japanese colleagues and those in foreign countries. I really appreciate you and this fund because I couldn’t have taken an expensive course in Continuing Study without the SEF program. The SEF grant is helpful for spouses who have free time to study and motivation to learn new things and/or develop their expertise.”

### **Tálita Salto Carmelo, Brazil/Sweden**

Stanford Continuing Studies: *Business Presence and Persuasion*

“This course helped me to get prepared for the TOEFL test. When I am back in Sweden, I want to get into the Masters Program in Drug Discovery and Development at Uppsala University. I am quite sure I am more prepared now that I have taken the course. Following my husband with his dreams did not have to mean that I should take a break from following mine, and the SEF program taught me this. Thank you very much.”
